

Health & Safety Information

Aspects of Health & Safety permeate the whole of the Nursery School setting and curriculum. Each learning opportunity is planned with Health & Safety as an integral and important consideration.

Whilst the Principal is responsible for the day-to-day application of policy and its components, within this Nursery, all members of staff, students and volunteers, have a role to fulfil in line with North Eastern Education & Library Board Health & Safety Policies.

All have a responsibility to exercise personal care and attention for the safety of themselves and others, and to co-operate with the Governors and Principal in the execution of the Health & Safety policy.

All defects in equipment and potential hazards will be reported to the Principal/ Class Teacher without delay and any accidents or injuries will be

reported to the Principal/Class Teacher as a matter of urgency and treated as appropriate by trained staff.

Parents, as partners, will be informed of any Health & Safety incidents as will NEELB as required.

The Health & Safety Policy should not be seen in isolation but linked to other policies such as Educational Visits; Healthy Eating; Risk Assessment etc.

The Health & Safety Policy in its entirety, and other relevant components, are available from the Nursery School on request at any time.
